

# MANAV SOMANI

3.5+ YOY | CMU – (MS) INFORMATION SYSTEMS MANAGEMENT | PRODUCT, DATA, AI  
[msomani@andrew.cmu.edu](mailto:msomani@andrew.cmu.edu) · <https://www.linkedin.com/in/manavsomani/> · 412-689-7119, Pittsburgh, PA

## PROFESSIONAL SUMMARY

Analytics turned **Product** and Program Management professional with **3.5+ years** of experience across **AI** (T-Mobile), **e-commerce** (Flipkart, subsidiary of Walmart) and **fintech** (Axio, startup acquired by Amazon). Skilled in building 0-1 products and data platforms, defining AI evaluation frameworks, executing strategies by leveraging data-driven insights and converting operational data into roadmap decisions.  
Portfolio: <https://manavsomani42000.github.io/manav.github.io/>

## EDUCATION

**Carnegie Mellon University**, Master of Information Systems Management Pittsburgh, PA, Expected Dec'2026

- **CGPA: 3.8/4.0**
- Coursework: Product Management Essentials, Data Science for PMs, Corporate Startup Lab, Advanced Business Analytics, Unstructured Data Analytics, Statistics, Database Management, Python, Organizational Design and Implementation, Java

**PES University**, Bachelor of Technology in Engineering Bangalore, May'2022

- Graduated with Distinction with a **CGPA of 3.8/4.0**
- Head of TEDxPESU: Organized the largest TEDx event in Bangalore, featuring renowned speakers with 5M+ combined followers
- Automobile Club: (Team HAYA Off-Roadng): Placed 19/120 teams in [BAJA SAE INDIA](#) 2020 and 3rd in Enduro Student India 2020

## PROFESSIONAL EXPERIENCE

**T-Mobile, Product Management Intern** – AI Engineering Team Bellevue, WA, May'26-Aug'26

- **Product Strategy:** Defined product requirements, success metrics, and KPI frameworks for the Agentic T-Mobile AI Voice Agent and Ops Center, driving roadmap prioritization and launch decisions
- **Execution:** Translated feature discussions into well-defined Jira tasks and acceptance criteria, reducing cross-functional ambiguity and enabling faster engineering execution
- **Validation:** Authored the PRD for a call simulation tool and led an AI evaluation framework of **200+** test cases built on it, surfacing critical failure modes and lifting pre-production issue detection **33%**
- **Safety & Governance:** Defined governance processes for security reviews, vulnerabilities, and dependencies, and developed AI safety guardrails that improved model compliance, enabling risk-based launch decisions and accelerating launch readiness

**CMU Corporate Startup Lab, Graduate Student Consultant** – Hellbender (Startup) Pittsburgh, PA, Jan'26-May'26

- Advised Hellbender, an edge vision AI startup, on transitioning hardware sales into a scalable "Computer Vision as a Service" (CVaaS) recurring revenue model, reframing their technical capabilities as an OpEx-driven offering for enterprise buyers
- Conducted market research across multiple verticals, building a prioritized go-to-market strategy based on TAM, competitive density, and technical fit, findings independently aligned with Hellbender's internal roadmap, validating the strategic direction

**Flipkart [Walmart subsidiary], Assistant Manager** – Control Tower Operations, Supply Chain Bangalore, Sep'24-Aug'25

- Owned end-to-end development of an automated centralized data platform unifying nationwide orders and metrics, replacing legacy systems and eliminating **9+** hours of daily manual reporting to enable real-time executive decisions for senior leadership
- Built an inventory risk model that prioritized high-risk locations across nationwide warehouses for targeted perpetual stock takes, cutting inventory discrepancies **50%** with no increase in audit time
- Led inventory strategy for fast-moving SKUs, improving warehouse ops efficiency 33% and reducing fulfillment lead times and cost
- Translated ground-team insights and operational data into inventory placement, pick-path changes, and user story prioritization, reducing picking time **25%** and improving CSAT by **20%**

**Axio [acquired by Amazon], Product Analyst** – Digital Collections, Amazon Pay Later Bangalore, Mar'23-Sep'24

- Led 0 to 1 development of an interactive voice and chatbot system for digital debt collections on Amazon Pay Later, owning end-to-end product requirements and user stories
- Launched curated collections strategies segmented on customer payment profile and behavior, lifting debt recovery from 85% to **95%**
- Reduced data processing time by **80%** by creating an automation tool that reduced operational costs

**Flipkart [Walmart subsidiary], Intern** – Control Tower Operations, Grocery Supply Chain Bangalore, Feb'22-Jul'22

- Identified key operational gaps and delivered an **80%** reduction in grocery product damage via inventory, transit and consumer analysis
- Automated processes cutting data management time by **75%**, and drove QC improvements in sync with warehouse leadership

## PROJECTS & HACKATHONS

- **CMU PRODHACKS 2026 HACKATHON FINALIST:** Placed **3rd** out of 400+ teams. Built "RubricGuard", an agentic AI-powered grading consistency engine that uses multi-LLM workflows to detect evaluation bias and ensure rubric alignment
- **CMU CAPSTONE PROJECT:** Project Manager for the "Air India Agentic Airline Network Stress Simulator", leading project management and engineering for a multi agent AI system that models network disruptions and optimizes flight delay recovery
- **CMU TECHNICAL CONSULTING PROJECT:** Spearheaded strategic loyalty analysis for TUI Group's global rewards ecosystem (TUI Smiles), leveraging sentiment modeling to evaluate cross-channel engagement across European source markets.

## SKILLS

### Product & Project Management

- **Tools:** Asana, Figma, Jira, Google Studios, Lovable
- **Methodologies:** Product Strategy, Product Design, PRDs, AI Evaluation Frameworks, Prototyping, KPI Frameworks, Agile, Safety & Governance, User Stories, A/B Testing, Go-To-Market, Tradeoffs

### Data & Analytics

- **Languages & Tools:** Gen AI, SQL, Python, R, PowerBI, Tableau
